SUMMARY

Web Developer advancing from a traveling career in healthcare. Certified in Full Stack Web Development from the University of Denver. Skills include building and managing full stack applications using javascript frameworks and technologies, including React, Node, Express, etc. Knowledgeable in UI/UX design principles, able to create user friendly, responsive, mobile-first web pages. Experience coding group projects, aware of the importance of writing clear, easy to understand code with an organized and uniform process. Recognized as a conscientious and open minded individual that values teamwork, respect, and integrity. Excited to utilize previous experience traveling the country and adhering to rigid healthcare standards in a developer role.

TECHNICAL SKILLS

Languages: ES6, Javascript, HTML5, CSS3

Frameworks: React, Bootstrap, Handlebars, Express, Passport

Technologies: Mongoddb, MySQL, Twilio, Sendgrid, Node, Firebase, Git

PROJECTS

StaySafe | <https://github.com/nicholasherrick/Project-Gamma> | <https://staysafe.best/>

- Mern stack application that allows users to share their location with friends when in potentially dangerous situations. It provides multiple ways to call for help with the press of a button. The app is recommended for use on a mobile device.
- Group project, I created the wireframe, documentation and helped with front-end components, styling, and debugging
- React, Node, Mongo, Express, Passport, Twilio, Sendgrid, Bootstrap, Heroku, Javascript/ES6, Jest, Enzyme, Helmet, Morgan, Google Maps Geocoding

Fridge Friend | <https://github.com/nicholasherrick/project2> | <https://fridge-friend-banana.herokuapp.com/>

- Full stack web application that tracks stock of a user's grocery items. Notifications via text with expired items. Search recipes based on what ingredients are currently available
- Group project, I built the twilio, cron, expired goods functionality, as well as some routes and models
- Javascript, JQuery, NodeJs, MySQL, Sequelize, ExpressJs, PassportJs, HandlebarsJs, Twilio, Cron, Bootstrap, Heroku, Jawsdb

The Hill Scraper | <https://github.com/nicholasherrick/MongoScraper> | <https://mongoscraper278.herokuapp.com/>

- Full stack web application that scrapes articles from The Hill and saves them to mongoddb. Users can login to save articles and comment on articles on a forum page
- Javascript, JQuery, NodeJs, MongoDB, Mongoose ExpressJs, PassportJs, HandlebarsJs, Bootstrap, Heroku, mLab

EXPERIENCE

Traveling Sterile Processing Tech

2017

– 2020

Medical Solutions

Omaha, NB

Demonstrated wide range of technical expertise, communicated effectively with staff from other departments, Displayed strong, detail oriented work ethic, maintained respect and professional demeanor in high stress situations, Adhered to rigid processes and regulations.

Key Accomplishments:

- Recognized by operating room staff for quality of work and attention to detail
- Achieved ability to learn and adjust rapidly to new positions traveling across the country

EDUCATION

Bootcamp Certificate: University of Denver, Denver, CO

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

CRCST Certificate: IAHCMM

The Certified Registered Central Service Technician certification program is designed to recognize entry level and existing technicians who have demonstrated the experience, knowledge and skills necessary to provide competent services as a central service technician.
